Daycare Excellence Since 1973

www.u-gro.com

Your child's preschool education can start **right here.**

We continue U-GRO Learning Centres' 37-year tradition of providing outstanding preschool education and exceptional, loving care in a safe and clean environment.

We nurture that fun-loving, playful spirit in every child.

We create the perfect environment for children to get the most from their early learning years.

Our facility is designed for children. Spacious, colorful, clean. Combining a child's sense of wonder and learning with a safe, friendly environment.

Our teachers are the best! They delight in making your child's day fun and rewarding.

Our smaller class sizes allow more personal attention for your child.

Classrooms and programs are age-appropriate to enhance your child's skills & understandings needed to be successful in school and life. Those areas include:

Sense of Positive Self and Initiative.

Social Relations.

Creative Representation.

Music and Movement.

Communication, Language and Literacy.

Exploration, Logic and Mathematics.

We offer full and part-time childcare, preschool, and school-age programs for children 6 weeks through 8 years of age.

We offer flexible scheduling to match your class schedules.

We participate with the Keystone Stars Program.

CCIS subsidies are accepted.
